4.0 First Aid Measures4.1 General Information **Embrace Varnish, applied to the patient's teeth in the recommended dosage, is a minimal health hazard.****NOTE:** Although the rosin is hydrogenated and highly refined, it may cause an allergic reaction in susceptible individuals.

Sodium fluoride overdose is not an issue with this product. A typical application of varnish would deliver less than 0.01 g of sodium fluoride to an adult's dentition, less than 0.005 g to a child's, well below the level that would cause adverse symptoms.

Ingestion or absorption of large amounts of ethanol (much greater than in this product) may cause central nervous system effects. Show this safety data sheet to medical personnel. Get medical attention in case of uncertainty.

- 4.2 Inhalation Move person to fresh air. Seek immediate medical attention for difficulty breathing, allergic reaction or any other respiratory effects.
- 4.3 Skin Contact Wash skin thoroughly with soap and water. Seek immediate medical attention for allergic reaction.
- 4.4 Eye Contact Keep eyelids apart and flush with running water for 15+ minutes. Remove contact lenses after several minutes. If effects occur, consult an ophthalmologist.
